Marine Carpentry & Galley Repair | Marine Spare Parts Supply

Batam, Indonesia

COMPANY PROFILE

COMPANY OVERVIEW

PT Pasifik Mitra Solusi (PMS) is a Batam-based marine technical service company supporting the marine and offshore industries.

We provide practical, solution-oriented support for vessels, shipyards, and offshore operators with focus on automation and control systems, HVAC and refrigeration, marine carpentry and galley repair, and marine spare parts supply.

INDUSTRIES WE SERVE

Oil & Chemical
Tankers

Tugboats &
Barges

Offshore Supply
Vessels

Bulk
Carriers

General Cargo
Vessels

Shipyards &
Marine Contractors

OUR 4 CORE SERVICES

Marine Automation &
Control Systems

Marine HVAC &
Refrigeration

Marine Carpentry &
Galley Repair

Marine Spare
Parts Supply

CORE SERVICES

We deliver integrated marine technical solutions with a focus on reliability, safety, and long-term performance. Our core services are designed to support your vessel operations efficiently and professionally.

01

MARINE AUTOMATION & CONTROL SYSTEMS

- Alarm Monitoring
- Cargo Control
- PLC Control
- Tank Gauging
- Sensors & Interface
- Troubleshooting, Repair & Commissioning

02

MARINE HVAC & REFRIGERATION

- Air Conditioning
- Air Handling Unit
- Ventilation System
- Compressor Maintenance
- Chiller & Refrigeration Support
- Troubleshooting & Repair

03

MARINE CARPENTRY & GALLEY REPAIR

- Cold Room Door Repair / Replacement
- Galley Room Repair Works
- Stainless Steel Fabrication
- Wash Basin Repair
- Gasket & Sealing Works
- General Onboard Carpentry Maintenance

04

MARINE SPARE PARTS SUPPLY

- Marine Valves
- PLC Components
- Automation Sensors
- HVAC Spare Parts
- Control Components
- General Marine Spare Parts Support

Backed by experienced engineers, quality parts, and a commitment to operational excellence.

MARINE AUTOMATION & CONTROL SYSTEMS

PMS supports vessel automation and control systems through practical inspection, troubleshooting, repair, and commissioning support for critical onboard monitoring and control functions.

OUR AUTOMATION SCOPE

Alarm Monitoring

Monitoring and management of alarms for safe and reliable operations.

Cargo Control

Monitoring and control of cargo operations and system interlocks.

PLC Control

Programming, configuration, and maintenance of PLC control systems.

Tank Gauging

Accurate level measurement and inventory monitoring for all tank types.

Sensors & Interface

Integration and maintenance of sensors and system interfaces.

Control Panels

Design support, assembly oversight, and maintenance of control panels.

Signal Checking

Verification of signals, loops, and communication for system integrity.

Troubleshooting, Repair & Commissioning

Rapid troubleshooting, repair, and commissioning for optimal performance.

WORK FOCUS

Inspection

Thorough inspection of automation components and systems.

Troubleshooting

Identify root cause and resolve issues quickly and effectively.

Functional Testing

Verify system performance through testing and validation.

System Support

Onboard support for stable operations and system reliability.

MARINE HVAC & REFRIGERATION

PMS provides practical support for marine HVAC and refrigeration systems to help maintain onboard comfort, ventilation quality, and equipment reliability.

OUR HVAC & REFRIGERATION SERVICES

Air Conditioning

Installation, maintenance, and performance support for marine air conditioning systems.

Air Handling Unit

Inspection, cleaning, and servicing of AHU to ensure efficient airflow and optimal operation.

Ventilation System

Maintenance and support for ventilation systems to ensure healthy and safe air circulation.

Compressor Maintenance

Routine maintenance and servicing to ensure reliable compressor performance and longevity.

Chiller & Refrigeration Support

Support for chiller and refrigeration systems to maintain cooling efficiency and system stability.

Troubleshooting & Repair

Rapid diagnosis and repair services to restore system function and minimize downtime.

SUPPORT SCOPE

Inspection

Thorough inspection and performance assessment of HVAC and refrigeration systems.

Maintenance Support

Planned maintenance support to ensure system efficiency and reduce breakdowns.

Repair Support

Skilled repair services to address issues quickly and effectively onboard.

Operational Reliability

Solutions that enhance system reliability for continuous onboard comfort and safety.

MARINE CARPENTRY & GALLEY REPAIR

PMS supports vessel accommodation and galley areas through practical carpentry, repair, modification, and fabrication works for safe and functional onboard spaces.

Cold Room Door Repair / Replacement

Repair and replacement of cold room doors, hinges, gaskets, and locking systems.

Galley Room Repair Works

Repairs and improvements for galley flooring, cabinets, ceiling, and furnishings.

Stainless Steel Fabrication

Custom stainless steel fabrication for marine interiors and equipment.

Wash Basin Repair

Repair and reinstallation of wash basins, faucets, drains, and associated fittings.

Gasket & Sealing Works

Replacement and installation of gaskets and seals to prevent leakage and maintain integrity.

General Onboard Carpentry Maintenance

General carpentry works for furniture, doors, panels, and interior structures.

WORK TYPES

Repair

Fixing damage and restoring functionality onboard.

Replacement

Replacing worn or damaged components with quality parts.

Fabrication

Custom fabrication solutions for marine applications.

Maintenance

Routine maintenance to ensure safety, reliability, and durability.

MARINE SPARE PARTS SUPPLY

PMS supports marine and offshore operations through practical spare parts supply assistance for selected automation, HVAC, and general marine requirements.

OUR SPARE PARTS CATEGORIES

Marine Valves

High-quality valves for marine systems and critical applications.

PLC Components

Reliable PLC modules, I/O cards, power supplies, and accessories.

Automation Sensors

Sensors and transmitters for monitoring and automation systems.

HVAC Spare Parts

Spare parts for marine HVAC systems including chillers and AHUs.

Control Components

Contactors, relays, circuit breakers, switches, and more.

General Marine Spare Parts Support

Wide range of general marine spare parts to support daily operations.

SUPPLY SUPPORT

Sourcing

Access to trusted suppliers and quality products.

Coordination

Efficient coordination with vendors and logistics partners.

Technical Matching

Accurate part matching and specification support.

Delivery Support

Timely delivery and tracking for smooth operations.

TECHNICAL CAPABILITIES

- ✓ Troubleshooting
- ✓ Inspection
- ✓ Repair
- ✓ Retrofit
- ✓ Calibration
- ✓ Commissioning
- ✓ Onboard Technical Support
- ✓ Docking Support
- ✓ Spare Parts Sourcing

PMS focuses on practical engineering support to help clients maintain system reliability, operational continuity, and effective vessel maintenance.

WHY CHOOSE US

PMS is committed to responsive support, practical engineering solutions, and dependable service quality for marine and offshore clients.

STRATEGIC LOCATION IN BATAM

Located in the heart of Batam, Indonesia's leading industrial and marine hub, enabling quick access and efficient support for your operations.

FAST RESPONSE

We act quickly to minimize downtime and keep your vessels and facilities running smoothly.

ENGINEERING-FOCUSED APPROACH

Our team delivers practical, reliable solutions backed by technical expertise and real-world experience.

RELIABLE NETWORK

Strong partnerships with trusted suppliers and service providers ensure consistent quality and availability.

SOLUTION-ORIENTED SUPPORT

We listen, understand, and deliver the right solution tailored to your operational needs.

COMMITMENT TO QUALITY

SAFETY STANDARDS

We prioritize safety in every task and operation.

TEAM EXPERTISE

Skilled and experienced professionals deliver trusted results.

QUALITY ASSURANCE

Rigorous processes ensure consistent performance and reliability.

CLIENT TRUST

We build long-term relationships through integrity and reliability.
